<div style="display: flex; justify-content: space-between;"> N/A Financial Management </div>						
13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.						
<input type="checkbox"/> A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.						
<input type="checkbox"/> B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).						
<input type="checkbox"/> C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF: FAR Clause 52.243-4, Changes						
<input type="checkbox"/> D. OTHER (Specify type of modification and authority)						
IMPORTANT: Contractor IS required to sign this document and return 5 copies to the issuing office.						
14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)						
Subject: Steam Vacuum System NOx Emission Reduction System						
This amendment is issued to revise Section I.11, Performance of Work By the Contractor (FAR 52.236-1)(APR 1984), L.17(a)A., Technical Approach (Subfactor), and M..3(b)(1), Technical Approach (Subfactor).						
Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.						
15A. NAME AND TITLE OF SIGNER (Type or print)				16A. NAME AND TITLE OF CONTRACTING OFFICER		
				KENNETH KITAHARA		
15B. CONTRACTOR/OFFEROR		15C. DATE SIGNED		16B. UNITED STATES OF AMERICA		16C. DATE SIGNED
(Signature of person authorized to sign)				 (Signature Of Contracting Officer)		July 13, 2011
<div style="display: flex; justify-content: space-between; font-size: small;"> NSN 7540-01-152-8070 PREVIOUS EDITION UNUSABLE 30-105 STANDARD FORM 30 (REV. 10-83) ES Prescribed by GSA FPMR (41 CFR) 101-11.6 </div>						

Accordingly,

1. Section I.11, Performance of Work By the Contractor (FAR 52.236-1)(APR 1984) is revised to read as follows:

I.11 PERFORMANCE OF WORK BY THE CONTRACTOR (FAR 52.236-1)(APR 1984)

The Contractor shall perform on the site, and with its own organization, work equivalent to at least 10 percent of the total amount of work to be performed under the contract. This percentage may be reduced by a supplemental agreement to this contract if, during performing the work, the Contractor requests a reduction and the Contracting Officer determines that the reduction would be to the advantage of the Government..

(End of clause)

2. L.17(a)A., Technical Approach (Subfactor), is revised to read as follows:

A. **Technical Approach (Subfactor):** The Statement of Work included in this solicitation serves as the Government's baseline requirement (Base Period (CLIN 0001) and Option 1 (CLIN 0002). The proposal must demonstrate that the offered items(s)/services(s) meet the baseline requirement. The technical acceptability will be rated based on a met/unmet basis, with assigned ratings of Acceptable (A), Potentially Acceptable (PA), or Unacceptable (U).

The Government baseline requirements listed in the following table must be met with a rating of Acceptable in order to be considered technically acceptable:

Government Baseline Requirement	All of the following must be met with a rating of Acceptable:
<p>Refer to Section C, DESCRIPTION/SPECIFICATION/STATEMENT OF WORK</p>	<ul style="list-style-type: none"> • The offeror shall demonstrate prior to contract award that they/subcontractor(s) are currently licensed to perform work within the state of California. The contractor/ subcontractor shall provide copies of their a) California A. General Engineering contractor license, b) California C 10 Electrical contractor license, & c) California C 21 Building moving/ Demolition Contractors license. • The offeror shall provide "U" stamp welding certification. • The offeror shall provide system life cycle cost including cost per unit pound of NOx that is abated. • The offeror shall provide a management plan that is appropriate for this requirement. Plan shall include; <ul style="list-style-type: none"> ○ Schedule of work including procurement of equipment. <ul style="list-style-type: none"> ▪ A Gantt chart that provides information on duration, beginning and end dates for the different task. ▪ Gantt chart shall span the whole period of performance from notice to proceed to period of commissioning the

	<p>facility.</p> <ul style="list-style-type: none"> ○ Expenditure vs. time outlook throughout the project (Burn Rate) • <u>Provide sub contractors teaming arrangement supported w/letters of intent to perform the work. This applies for at minimum the following disciplines: Electrical, NOx manufacturer/ designer, Demolition, and Mechanical sub contractors.</u> • The offeror shall provide a work plan both for construction (CLIN 0001) and demolition (CLIN0002). The work plan both for construction and demolition shall include: <ul style="list-style-type: none"> ○ Identification of all risks in implementing the work plan and potential mitigations to the risks ○ Implementation of all safety and regulatory elements ○ Demolition plan that details the following: <ul style="list-style-type: none"> ▪ Draft Procedure for demolition of the existing foundations ▪ Draft Procedure for the demolition of the existing NOx system.
--	--

3. M.3(b)(1)A., Technical Approach (Subfactor) is revised to read as follows:

A. Technical Approach (Subfactor): The Statement of Work included in this solicitation serves as the Government's baseline requirement. The proposal must demonstrate that the offered item(s)/service(s) meet the baseline requirement. The technical acceptability will be rated based on a met/unmet basis, with assigned ratings of Acceptable (A), Potentially Acceptable (PA), or Unacceptable (U).

The Government baseline requirements listed in the following table must be met with a rating of Acceptable in order to be considered technically acceptable:

Government Baseline Requirement	All of the following must be met with a rating of Acceptable:
Refer to Section C, DESCRIPTION/SPECIFICATION/ STATEMENT OF WORK	<ul style="list-style-type: none"> • The offeror shall demonstrate prior to contract award that they/subcontractor(s) are currently licensed to perform work within the state of California. The contractor/sub-contractor shall provide copies of their a) California A. General Engineering contractor license, b) California C 10 Electrical contractor license, & c) California C 21 Building moving/ Demolition Contractors license. • The offeror shall provide "U" stamp welding certification. • The offeror shall provide system life cycle cost including cost per unit pound of NOx that is abated. • The offeror shall provide a management plan that is

	<p>appropriate for this requirement. Plan shall include;</p> <ul style="list-style-type: none"> ○ Schedule of work including procurement of equipment. <ul style="list-style-type: none"> ▪ A Gantt chart that provides information on duration, beginning and end dates for the different task. ▪ Gantt chart shall span the whole period of performance from notice to proceed to period of commissioning the facility. ○ Expenditure vs. time outlook throughout the project (Burn Rate) <ul style="list-style-type: none"> • <u>Provide sub contractors teaming arrangement supported w/letters of intent to perform the work. This applies for at minimum the following disciplines: Electrical, NOx manufacturer/ designer, Demolition, and Mechanical sub contractors.</u> • The offeror shall provide a work plan both for construction (CLIN 0001) and demolition (CLIN0002). The work plan both for construction and demolition shall include: <ul style="list-style-type: none"> ○ Identification of all risks in implementing the work plan and potential mitigations to the risks ○ Implementation of all safety and regulatory elements ○ Demolition plan that details the following: <ul style="list-style-type: none"> ▪ Draft Procedure for demolition of the existing foundations ▪ Draft Procedure for the demolition of the existing NOx system.
--	---

This subfactor's acceptability evaluation will be based on a met/unmet basis, with assigned ratings of Acceptable (A), Potentially Acceptable (PA), or Unacceptable (U).

Definition of Technical Acceptability Ratings

Acceptable (A)	Met rating for this aspect of the proposal.
*Potentially Acceptable (PA)	After the initial evaluation, the rater anticipates additional information could be provided by an offeror during discussions would result in a proposal rating of Technically Acceptable ("met") for this technical aspect of the proposal.
Unacceptable (U)	Unmet rating and failure for this aspect of the proposal.

*A proposal is rated "Potentially Acceptable" when after the initial evaluation, the rater anticipates additional information that could be provided by an offeror during clarifications or discussions would result in a proposal rating of Technically Acceptable ("met"). The offeror will need to revise or further explain their proposal. If, upon review of the new or revised information, the proposal does not meet the government's requirements, a "Technically Unacceptable" rating may be warranted. **Although an offeror may receive a rating of "Potentially Acceptable," it does not guarantee that discussions will be held or that the offeror will automatically be included in the competitive range if discussions are held.**

All other terms and conditions remain unchanged and in full force and effect.
